Billtrust Solutions for Retail

Transforming accounts receivable with AI and automation

In retail, maintaining a healthy cash flow impacts everything from inventory management to omnichannel expansion. By automating and streamlining AR operations with AI, retailers can reduce payment complexities, improve cash application accuracy, and maintain the working capital needed to seize new opportunities.

Billtrust is trusted by hundreds of retail companies who have digitally transformed their accounts receivable operations and are realizing positive business outcomes. Our AI-powered software improves accuracy and efficiency of invoicing, credit and collection, and cash application, while arming you with insights and intelligence that improve your business. Our payments platform allows you to create your own policies, streamlines management of multiple modalities and automates the process resulting in faster payments.
