

Power productivity with accounts receivable automation

Gain up to 80% efficiency with AI software from Billtrust

Manual processes kill productivity.

Nearly 60% of businesses cite manual AR processes as the reason for poor cash flow, but upgrading your fintech stack isn't always easy. Full automation requires next-gen AI tools that can move beyond simple, rule-based approaches. When it's time to modernize labor-intensive practices, turn to Billtrust, the AR platform powered by Agentic AI and autonomous capabilities derived from the industry's largest financial data network.

"One of the greatest benefits of Billtrust is time savings. With Billtrust, we consolidated three full-time positions into a single role."

Adam Aune, Credit Manager
Butler Machinery

Power your productivity

Gain 80% more efficiency

Automate your entire AR lifecycle from invoicing, payments, and cash application to credit and collections. Our clients recognize productivity gains of up to 80%.

Enable scalability

Handle higher volumes without hiring more staff. Our Cash Application solution uses machine learning to learn your business, so you can achieve match rates of up to 95%.

Retain talent

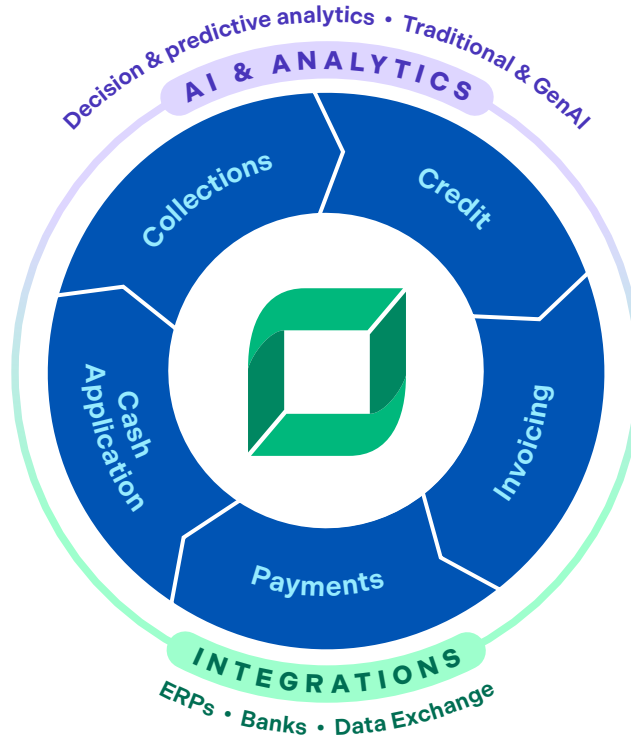

With Billtrust, your team will enjoy a single platform with clear visibility, control, and insights to consistently optimize efficiency and AR performance.

Invoicing efficiency

- ✓ Autonomous invoicing workflows save time
- ✓ Electronic delivery to 260+ AP portals
- ✓ Print and mail services offload work

Collections capacity

- ✓ Real-time payment updates eliminate manual research
- ✓ Predictive analytics maximize collections efficiency
- ✓ AI can personalize reminder emails for you at scale

Payment productivity

- ✓ Easily expand payment modalities
- ✓ Speed processing with payment portals
- ✓ Auto-remittance avoids manual reconciliation

Credit throughput

- ✓ Real-time payment updates eliminate manual research
- ✓ Predictive analytics maximize collections efficiency
- ✓ AI can personalize reminder emails for you at scale

Cash application output

- ✓ +95% match rates powered by machine learning
- ✓ You control how many exceptions are generated
- ✓ Tailored workflows reduce manual intervention

"Originally, it took 2-3 days to apply cash, but now all cash remittances are done by the end of the day."

Avron Cohen, Director of Corporate Finance
Daylight Transport

"In 2021, we sent out 57,000 invoices. Today, that number has grown to 140,000 with most sent electronically. Billtrust has saved our team a significant amount of time."

Karen Singleton, Director of Credit & Shared Services
SPI
