

# Automated AR grows productivity while honing efficiency

## STANDARDIZED INTERNAL EFFICIENCIES

Internal business divisions and brands benefit from the reconciliation of payment acceptance and invoice standards. The Billtrust AR solutions enable programmatic implementation of preferences and policies across departments and divisions.

## REDUCED DSO

Automation-powered AR reduces errors and presents customers with a more consistent experience. Customer billing and payment preferences are easily satisfied and smart software helps resolve deductions, credits and disputes faster.

## INCREASED CUSTOMER SATISFACTION

Automated solutions empower AR departments to scale up productivity without additional overhead costs. And smart processes allow business to take advantage of level 2 & 3 processing rates.

Leading manufacturers have used Billtrust solutions to improve and automate their AR processes.
