

# Tailored, multi-channel invoice delivery

Billtrust provides a global solution that is flexible, transparent and seamless for when paper customers are ready to make the transition to electronic delivery, all while future proofing invoice presentment

**EMAIL  
DELIVERY**

**PRINT & MAIL  
DELIVERY**

**CUSTOMER PORTAL  
AUTOMATION**

**eINVOICE  
CONNECT**

**GLOBAL  
INVOICING**

Both print and electronic invoice delivery can be seamless, efficient, flexible and transparent. Most importantly, it can leverage the data that's already stored in your ERP system, which is the source of truth. Billtrust Invoicing automates and accelerates invoice delivery for you locally and around the world. No matter how your invoices need to be sent — whether by email, print, online portal, through an AP network or delivery channels — your accounts receivable teams can leverage a single platform to send them in any format and through any channel.

## **SEAMLESS, GLOBAL OUTBOUND E-INVOICING**

- ✓ Global mandate compliance
- ✓ Process high volumes of invoices in seconds
- ✓ Reduce print and postage costs
- ✓ Eliminate lost invoices
- ✓ Consolidate AR across business units
- ✓ Integrate seamlessly with customers
- ✓ Eliminate manual processes
- ✓ Shorten your DSO
- ✓ Improve customer service
- ✓ Reduce costs

# Invoice delivery solutions

## CUSTOMER PORTAL AUTOMATION

- Customer portal automation eliminates the need for AR teams to dedicate hours to keying in data or maintaining complex, custom solutions
- Send invoices to 150+ AP systems automatically based on customer preference
- Optimizes customer invoice management by leveraging robotic process automation (RPA) to overcome buyer AP systems that do not allow for direct integration

## PRINT & MAIL DELIVERY

- Billtrust automatically prints and mails invoices leveraging our print facilities across the globe, intelligently mailing each invoice from a facility closest to your customer to reduce delivery time
- Delivery tracking technology allows you to track each and every invoice from processing to its delivery
- Bullpenning technology delays the mailing of low dollar invoices to reduce costs of postage and processing

## GLOBAL INVOICING

- Billtrust provides connectivity to a wide range of B2G delivery networks, and B2B channels, making cross-border, international invoicing easy
- Ensures international organizations can fulfill government e-invoicing mandates
- Future proofs your invoice presentment with Billtrust

## eINVOICE CONNECT

- A secure, branded and fully-managed online portal for viewing invoices
- Customers can research documents by key criteria, including data, amount and PO number and download them as PDFs or directly into their accounting package
- Multi-language support combined with international payments capabilities for a localized experience

## EMAIL DELIVERY

- Deliver branded, custom emails to your customers automatically
- Easy Import gives you the ability to attach replica PDF invoices as well as CSV, QuickBooks and other accounting package file types to every email you send
- Send automatically generated payment reminders and past due emails
- Easy enrollment lets customers pay their emailed invoices through your online portal quickly and securely

## 360° visibility with dashboards and reporting tools

- **Research customer invoices and history** using a variety of search criteria and view exact copies of PDF invoices
- **Email or fax copies of invoices** to customers with one click
- **Track the processing and delivery** of each and every invoice whether sent by paper or electronic
- **View dashboards and run reports** that provide insight into your entire invoice delivery process, from company-wide electronic adoption rates to individual branch invoicing reports
- **Easily upload and tailor messages** to be displayed on paper and PDF invoices
